

Flowers have captivated our hearts for centuries. They are symbols of affection, and are perfect for any occasion. Flower preservation is a truly creative, exquisite, and memorable gift.

Handmade by Simona can preserve your flower bouquets and transform them into glorious heirlooms. Our unique cards and gifts are ideal for the important people in your life.

Pressed Flower Bouquets

Handmade by Simona takes the flowers from your special occasions and turns them into works of art that last a lifetime. Our Pressed Flower Bouquets can commemorate any event, including:

- ✿ Wedding
- ✿ Birthday and Anniversary
- ✿ Retirement
- ✿ Memorial service
- ✿ Religious ceremony
- ✿ Mother's Day and Valentine's Day

We can also preserve other mementos from your special occasions, such as boutonnieres, corsages, invitations, and bridesmaid bouquets.

Hand-Crafted Cards and Gifts

Each card we create is a work of art, with gracefully pressed flowers and unique designs. We leave the insides blank for personal messages, and include matching envelopes. We also use pressed flowers to make framed art, magnets, paperweights, and bookmarks.

Flower Preservation Process

We use an all-natural flower preservation process with no

chemicals, dyes, or additives. This enables us to dry flowers quickly, with maximum color retention.

For best results, we recommend that you keep flowers refrigerated in a plastic bag, and send them to us within 3 days after your event. We also suggest that you put paper between flowers to prevent shipping damage.

Upon receipt, we photograph your bouquet and then press each flower into a display that depicts your original arrangement. You can let us select a background and frame, or supply your own to match the theme of your event.

It takes us 4-6 weeks to press, design, and frame a bouquet. The price for the preservation depends of the size and complexity of the bouquet.
